

WHPS

Hardened washer head self-tapping screw with collar

Description

Application	Screw tempered for connections of wooden and wood-derived elements, as well as plastic elements. Frequently applied for fastening furniture accessories, e.g. handles.
Type of installation	This screw does not require prior drilling.
Substrate	Chipboard, plywood, wood, sterling board, MDF board
Material	Zinc-plated low carbon steel

Features and advantages

Head with collar with PZ drive

Raised flange head ensures tight fastening of the installed element. Commonly used PZ drive also makes installation easier.

Sharp point self tapping

Its sharp point makes for a quick start installation.

Profile of thread

Specially designed profile of thread leads to the assembly being quick, while the fastening of elements is long-lasting.
