

SUN-310

UNIVERSAL SILICONE SEALANT - WHITE, TRANSPARENT, BROWN

TECHNICAL DATA

| Code | Colour | Can size | Quantity per box |
|------------|-------------|----------|------------------|
| SUN-310-BI | White | 310 ml | 12 |
| SUN-310-BB | Transparent | 310 ml | 12 |
| SUN-310-BR | Brown | 310 ml | 12 |

APPLICATION:

One-component permanently elastic acetic cure silicone sealant with excellent adhesion to porous and non-porous substrates. Not suitable for PVC and acrylic products. After curing forms a weather-resistant coating.

Suitable for sealing connections between finishing and decorative materials as well as gaps and movement joints. Suitable for sealing windows, display cabinets, showcases, used as sealant in metal-to-glass applications, workshop, motor and household jobs.

SSA-310

SANITARY SILICONE SEALANT - WHITE, TRANSPARENT

TECHNICAL DATA

| Code | Colour | Can size | Quantity per box |
|------------|-------------|----------|------------------|
| SSA-310-BI | White | 310 ml | 12 |
| SSA-310-BB | Transparent | 310 ml | 12 |

APPLICATION:

One-component permanently elastic acetic cure silicone sealant with excellent adhesion to porous and non-porous materials and universal application. Anti-mildew compounds ensure long-lasting resistance to moisture; mildew and fungus resistant.

Used as flexible sealant for connections between building and finishing materials, in particular for sealing of ceramic sanitary wear and enamel baths and shower trays, windows, display cabinets, showcases, etc.
