

# DCF-300 / DCF-410 / DCF-585

Injection anchor dispensers

**DCF-300**

**Description**

Dispensers are used for resin injection into anchor holes. Dispenser number markings are in accordance with resin cartridge content markings.

**For use with injection anchors**

<b>DCF-300</b>	WCF-PESF-300, WCF-PESF-E-300, WCF-PESF-C-300, WCF-VESF-300, WCF-VESF-E-300
<b>DCF-410</b>	WCF-VESF-410, WCF-VESF-E-410, WCF-EASF-410, WCF-EASF-E-410, WCF-EASF-C-410
<b>DCF-585</b>	WCF-E3-585

**Features and advantages**

<b>Simple and intuitive handling</b>	Ideal fit for compatible cartridges and operation like in silicon dispensers make these injection anchor dispensers simple and intuitive
<b>Easier injection</b>	Special dispenser design allows for application without using much force to extrude the resin - compared to other commercially available dispensers
<b>Long life</b>	High quality materials used in dispenser production ensure long and no-failure operation

**DCF-410**

**DCF-585**
