

EWW Pan head euro screw

Description

Application	Screw mainly applied for connecting furniture accessories, e.g. hinges, guide grooves etc. with wooden elements, chipboard, plywood, OSB board.
Type of installation	Prior to fastening the screw, it is first of all required to bore a hole.
Substrate	Chipboard, plywood, wood, sterling board, MDF board
Material	Zinc-plated low carbon steel

Features and advantages

Pan head Pan head ensures tight fastening of the installed element.

KOMBI slot Universal slot facilitating assembly with the aid of the PZ 2 bits or flat-head screwdriver

Profile of thread Specially designed profile of thread leads to the assembly being quick, while the fastening of elements is long-lasting

Blunt finishing of thread The blunt finishing of thread facilitates its axis guide in the assembly hole, as well as enabling the full use of its length for reinforcing the connection
