

## GSCZ / GSOC (PN-EN 10230-1) Lost head nails

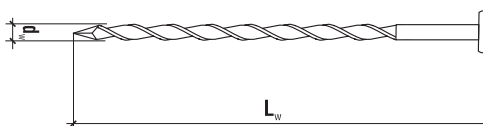

### Description

- Application** Use for making lap joints in wood and similar materials. Narrow oval head; shank diameter depends on shank length. For use in woodworking.
- Installation** Does not require prior drilling.
- Substrate** Chipboard, plywood, wood, sterling board, MDF board
- Material** Blck finish or galvanized low-carbon steel

Code	Code	$d_w \times L_w$ [mm]	Size in inches	
GSCZ-12020	GSOC-12020	1,2 x 20	-	5
GSCZ-12025	GSOC-12025	1,2 x 25	1"	5
GSCZ-14025	GSOC-14025	1,4 x 25	1"	5
GSCZ-14030	GSOC-14030	1,4 x 30	-	5
GSCZ-16035	GSOC-16035	1,6 x 35	-	5
GSCZ-18040	GSOC-18040	1,8 x 40	1,5"	5
GSCZ-20040	GSOC-20040	2,0 x 40	1,5"	5

## GSKCZ / GSKOC (PN-EN 10230-1) Twisted nails

### Description

- Application** Use for woodwork lap joints. Wide flat head with rough surface facilitates hammering and prevents hammer from side slipping. Spiral-twisted shank gives extra grip and increased pull-out resistance. Suitable for structural connections where torque and bending forces can occur.
- Installation** Does not require prior drilling.
- Substrate** Chipboard, plywood, wood, sterling board, MDF board
- Material** Blck finish or galvanized low-carbon steel

Code	Code	$d_w \times L_w$ [mm]	Size in inches	
GSKCZ-31050	GSKOC-31050	3,1 x 50	2"	5
