

KGD/KSGD/KMGD Screw for attaching drywall to wood, PH

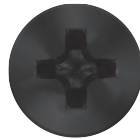

CE
PN-EN 14566

Description

Application	Screw for fastening drywalls to timber substrates in interior applications.
Type of installation	This screw doesn't require prior drilling
Substrate	Chipboard, plywood, wood, sterling board, MDF board
Material	Low carbon steel with phosphate finish

Features and advantages of the product

PH 2 drive One of the commonest drives provides for installation with the use of impact torsion bits.

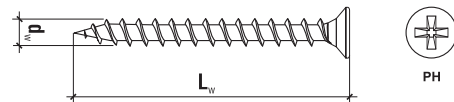

Counter-sunk head Countersunk head ensures flush fitting of the screw in the installed member.

Thread for timber and sharp point Thread design guarantees reliable and durable fixing both to timber and wood-based products. Its sharp point makes for a quick start installation.

Sample application

	Code	kg	Code	Szt.	Code	Szt.	d _w x L _w [mm]
ø3,5	KGD-35025	10	KSGD-35025	1000	KMGD-35025	200	3,5 x 25
