TECHNICAL DATA

Code	Can size	Quantity per box
KST-750	750 ml	12

APPLICATION:

THERMO STYRO FIX is a polyurethane adhesive designed for fixing of expanded polystyrene boards with the use of Wkręt-Met fasteners in external wall insulation systems and for bonding polystyrene boards including those with roofing felt in flat roofing insulation systems.

Suitable for bonding polystyrene ceiling tiles, wall panels and for sealing thermal insulation joints. Excellent for bonds between thermal insulation and building structure without using fasteners. The only adhesive in the market that bonds with an adhesive layer of 3 to 15 mm thick!

Excellent adhesive properties with most substrates: concrete, bricks and ceramic blocks, new plaster, wood, metal, corrugated metal roofing sheets as well as traditional and mineral felt roofing and PVC materials.

KMB-750

POLYURETHANE ADHESIVE FOR GENERAL CONSTRUCTION WORK

construction blocks and non-bearing walls

natural stone

wood, chipboard and fibreboards

ceramic tiles

interior and exterior windowsills

TECHNICAL DATA

Code	Can size	Quantity per box
KMB-750	750 ml	12

APPLICATION:

One-component PU adhesive for general construction work. In comparison to mortar, MultiBud FIX makes masonry jobs easier and faster leaving the environment free from dust and dirt. Only one tool needed to use it - standard foam application gun. MultiBud FIX needs only 30 min. to make a strong bond.

Product can be used for fixing construction blocks and erecting non-bearing walls, and also for bonding pieces of wood, chipboards and fibreboards, as well as an adhesive for putting in interior and exterior windowsills and for bonding of stone and tiles.
