

Plastic cutter for cutting holes in polystyrene

WK-FT

diameter \varnothing 66.7 mm

Specifications:

- Plastic cutter for cutting holes in polystyrene insulation material for insertion of polystyrene disc
- Controlled cutting depth flange collar

Polystyrene disc (white, graphite)

KS, KSG

dimension \varnothing 67 x 17 mm

Specifications:

- Polystyrene disc white/graphite* for covering up work holes in polystyrene - installation spot covered up; to be used with anchors- see Table no. 3 page 22

*- on order

Polystyrene disc (for ECO-DRIVE 8)

EDKS-white*, EDKSG-graphite**

\varnothing 62 x 10 mm

Specifications:

* - supplied with fastener

** - on order

Support washer

TDX-90, TDX-140

diameters \varnothing 90 mm, \varnothing 140 mm

Specifications:

- Support plate with diameter of 90 mm for final securing touches in installation of mineral wool (including Lamella), to be used with anchors see Table no. 3 page 22
- Fibreglass reinforced plastic
- Support plate with diameter of 140 mm for final securing touches in installation of mineral wool (including Lamella), to be used with anchors see Table no. 3 page 22
- Fibreglass reinforced plastic
