

KU-STRONG-310

ADHESIVE SEALANT MEGA PRO-FIX STRONG 360

TECHNICAL DATA

Code	Can size	Quantity per box
KU-STRONG-310-BI	310 ml	12

APPLICATION:

High-quality adhesive sealant based on hybrid polymers with very good adhesive and strong bond properties. For general construction jobs. Suitable for most substrates, including damp surfaces. Does not cause corrosion on metals. MEGA PRO-FIX STRONG is weatherproof and resistant to UV radiation. Does not shrink during curing process; paintable when cured and contains no harmful components.

Suitable for bonding and sealing inside and outside buildings. Provides a strong bond and can be used to bond metal, stone and wood among others, and is suitable for all-around construction jobs where an excellent bond is required. Adheres well to most building materials such as wood, bricks, concrete, glass, copper, zinc-plated steel, aluminium, etc.

MEGA PRO-FIX STRONG has anti-vibration and sound-dampening properties.

KU-310

ADHESIVE SEALANT MEGA PRO-FIX

TECHNICAL DATA

Code	Colour	Can size	Quantity per box
KU-310-BI	White	310 ml	12
KU-310-BB	Transparent	310 ml	12

APPLICATION:

One-component adhesive sealant based on MS polymer technology.

- excellent adhesion to and sealing of most building materials
- resistant and durable also on uneven surfaces
- permanently elastic, non-slumping
- resistant to weather conditions (remains stable in temperatures between -40°C and +90°C)
- resistant to ageing
- resistant to mildew and fungi
- odourless
- paintable when cured

Wide range of applications makes MEGA PRO-FIX perfect for both DIY enthusiasts and professionals. MEGA PRO-FIX is suitable for bonding, sealing and grouting of any type of building material, including glass, wood, concrete, brick, natural stone, ceramic, steel, aluminum, plastics as well as for fixing mirrors. It is suitable for external and internal applications. Its mildew- and fungus-resistance makes it suitable for sanitary applications.
