

MTMS Cam dowels

Description

Application	Element of eccentric pin applied for assembly of furniture body
Type of installation	Assembly requires previous drilling
Substrate	Chipboard, plywood, wood, sterling board, MDF board
Material	Steel / Plastic

Features and advantages

PZ drive

Commonly used PZ drive also makes installation easier

Colourful rotating sleeve

Rotating sleeve facilitates holding the mandrel during assembly

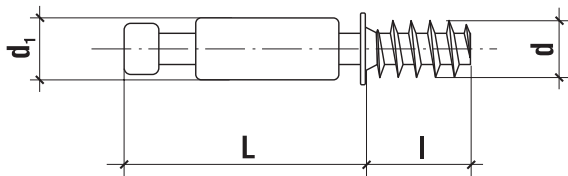

Restrictive flange

Flange secures the mandrel against excessively deep screwing into the substrate

Direct thread

Thread construction enables the correct and long-lasting embedment of mandrel into substrate

How to read the code TMS-63034?

MTMS	63	034
Typ	Screw diameter 6,3mm	Length of mandrel - thread relief with head 34mm

	Code	d [mm]	d ₁ [mm]	L [mm]	l [mm]	Pcs
ø6,3	MTMS-63024	6,3	7	24	11	1000
	MTMS-63034	6,3	7	34	11	1000
