

UDE-310

ROOF SEALANT

TECHNICAL DATA

Code	Colour	Can size	Quantity per box
UDE-310-CZ	Black	310 ml	12

APPLICATION:

Ready to use one-component elasto-plastic sealing and filling material. Long lasting weatherproofing performance makes it ideal for any type of sheet-metal roof repairs and sealing. Solvent-free formula (safe for polystyrene) and excellent adhesion to most building materials make it a universal multi-purpose product with a wide range of applications.

Ideal for repairing roofing felt, sealing roof works, valley flashings, eaves, chimney hoods, etc., sealing roof cracks, balcony floor and terrace cracks, gutter and downpipe lap joints, and filling cracks while ensuring leak proof and elastic joints.
