

WD Hanger bolt

Technical Approval
AT-15-8834/2012

How to read the code WD-08200?

WD	08	200
Bolt type	Screw diameter 8,0mm	Screw length 25mm

Description

Application	For use with plugs as expansion pin and for joining elements with wooden substrate.
Type of installation	Prior to fastening the screw, it is first of all required to bore a hole.
Substrate	Chipboard, plywood, wood, sterling board, MDF board
Material	Zinc-plated low carbon steel.

Features and advantages

TX drive

TX drive guarantees optimum torque transfer.

Normalized metric thread

High resistance of connection due to high angle of thread and inertia reel.

Thread for wood

Thread construction guarantees certain and long-lasting connection, both in wooden and wood-derived substrate.
